

## Features

- Utilizing SMD technology
- LCD displays voltage and current
- LCD displays stable voltage and current
- Discretionary choice of green, yellow backlight for LCD
- Automatic conversion of stable voltage and current
- Loopy type high accuracy voltage regulation
- Step-type electric current adjustment
- With extension output connectors

## Specifications

Source effect:  $\leq 5 \times 10^{-4} + 3\text{mv}$   
 Load effect:  $\leq 5 \times 10^{-4} + 3\text{mv}$   
 Ripple coefficient:  $\leq 1\text{mv}$   
 Stepped current:  $30\text{Ma} \pm 1\text{mA}$
